

Early or Late?

Do you have a preference for things being early or late?

Dad preferred to prepare everything in advance.

He often presoaked the laundry. He preprogrammed the oven so the meal was ready when they got home. He prebaked the bread. When it was time for dinner, he preheated the oven. Everything he did was ready ahead of time.

Mom did not often prepare anything in advance.

She never presoaked the laundry. She never preprogrammed the oven or prebaked the bread. She prepared everything at the last moment.

It was always predictable that Dad would be early and Mom would be late!
